Founder's Message

The Paradigm of education is rapidly changing with the advancement in technology and exposure to various fields – its an absolute new era of teaching and learning. Education, today has a multifaceted role. It should give wings to the learners to fly on their own and at the same time keep them rooted with cultures and values inculcated in them. A school is a world in miniature where one receives training for enhancing their life skills. It is here that we prepare students for the challenges of the global world – a world that continually demands new skills and competencies – a world that requires the students to excel in communication and inter-personal skills – a world that requires them to become life-long learners and earners.

Chairman Message

"Every child born is genius." So a child should be encouraged in creative thinking because every child is talented, technical and has the potential to learn.

In School, children flourish with four main development goals as:-
(a) Community Development (Thinking Skill)
(b) Emotional Development (Feeling)
(c) Social Development (Relating Skill)
(d) sensory-Motor Development (Co-ordinating Skill)

As per the latest research, children retain what they learn much better when hands on activities go along with the learning, they learn:-

- 10% of what they read, • 20% of what they hear, • 30% of what they see, • 50% of what they read and hear
- 70% of what they say, and • 90% of what they do.

Hence, keeping in view the above result M.M.D. Public School provide the most up-to-date and activity based high profile education to its students.

I hope, this prospectus will provide proper guidelines to the aspirants of entering into this esteemed temple of knowledge to educate their off-springs in true sense.

With the best wishes

Shri Prateek Raj Singh
Chairman

Principal Message

Our all actions are based on our core beliefs that are our deepest assumption about the way world works. It is imperative then to closely examine them. First because we need to reflect on their intrinsic worth and second to understand better their convention with our educational practices. All educational practices are based on our core beliefs, acknowledge or unacknowledged.

As educators we need to examine our core beliefs and the educational principles they imply. It is these beliefs and principles which constitute our educational platform, i.e. the set of beliefs and principles by which we stand. Let us quote Mahatma Gandhi "Every one of us has good inherent in soul it needs to be drawn out by teachers and only those teachers can perform this sacred function whose own character is unsullied, who are always ready to learn and grow from perfection to perfection"

The core beliefs which operate here in schools are "all children are potentially good and capable of growth"
The educational principles are inferred from these core beliefs.
Creating a vision forces us take a stand for a preferred future

School Hostel

The school provides a congenial and homely environment with healthy boarding and leading facilities for its students. Students live safely under the guidance of well disciplined learned persons round the clock. The rules and regulations for the boarders are quite life-supporting which enable them to be adorned with good manners, self confidence, self-dependence, reliance, diligence and co-operation. They are trained to share grief and pleasure with one another.

Students get an opportunity for four hours extra coaching in the hostel along with regular practices of physical exercise under the guidance of trained teachers. There is also provision of computer class, spoken English class & group discussion among the students from time to time.

Career Guidance

It is considered that the school hostel is apart of the society to lay down the founding stone of education, manners, intelligence creativity and personality of boarders. They are prepared to face challenges in competitive ways of education and views to create their own recognition. However, they are inspired with the field of their interest to build carriers keeping pace with today's global challenges.

School Anthem

*We are all saints, bring you good tiding,
Duty, devotion we strive with moral binding
Come let us unfurl our flag with pride,
Steadfast we shall stand together by its side.
Come let us flourish as renunciation of sages,
"Impart Pure Knowledge" is our pedagogic's message
We intend to establish a blissful utopia,
Even without any peccadillo but ecstasy inertia.
Glory be our name, victory be our aim,
Infact present ourselves as M.M.'s fame.*
